

# Have you suffered a recent Knee Cap Injury or do you have re-occurring Knee Cap Instability?

Researchers at the University of Kentucky College of Health Sciences are inviting you to participate in a research study that assesses a new rehabilitation treatment after kneecap injury or re-occurring instability.

## You May Be Eligible to Participate if You:

- Are between 14 and 40 years old
- Suffered a kneecap injury or have re-occurring knee cap instability
- Do NOT have diabetes or uncontrolled hypertension
- Do NOT have varicose veins

## Benefits of Participating:

Information on your muscle strength and quality

Up to 8 weeks of Physical Therapy visits as part of the study

You will also receive up to \$500 for completion of all study visits
