

HELLO,

We understand that taking on a student for clinical training can be a big commitment, and we appreciate your willingness to participate in our educational program. Our students are well-prepared and bring valuable skills and knowledge to your healthcare setting.

In this one-pager, we aim to provide you with a clear overview of what our students are trained in and the benefits they offer to your team and patients. We hope this information will help address any concerns or hesitations you may have about hosting our students in your facility.

Upon Graduation, students receive a Masters Degree in Physician Assistant Studies
